CleanRoom 2L LED

Type of luminaire
Cleanroom LED luminaire combines excellent optics solution with high degree of protection against dust and water. The luminaire is IP 65 and ensures both efficiency of the light output, high protection against glare (with UGR<19) and long life total maintenance free.

Mounting
The luminaires can be mounted on any ceiling where protection from dust and water is needed. The mounting is done with access from the top of the ceiling in recessed type.

Application
Cleanroom LED can be used in hospitals, operations rooms as it is completely sealed. As the LEDs installed do not emit UV and IR light, the luminaire is perfect for pharmaceutical and food industry.

Optical system
Cleanroom LED is equipped with double parabolic optical system designed especially for LED source of light. The optics is produced from highly efficient anodized aluminum in combination with a dedicated diffuser. For this optical system ELUX has a registered EU design. The luminaire is sealed with tempered glass.

Electrical connection
This LED luminaire is equipped with special IP65 connectors.

Warranty
The operational life of the LED modules used is more than 50,000 h. The warranty of the luminaire is 5 years.
