

LED

Luminaire type

Suspended luminaire with highly efficient optics for direct illumination of offices, computer halls, meeting and conference rooms.

Key advantages

- excellent anti-glare protection with UGR <19
- long life-span to up to 60,000 hours
- option for continuous mounting
- designed for quick and easy installation and leveling

Mounting

QLED is designed for suspended mounting with two steel wires. The wires are fixed to the luminaire trough automatic fixation that allows secure locking and easy manual adjustment of the level without special tools.

Application

With glare to even below 17, QLED is excellent for offices, computer halls, banks, meeting rooms, conference halls, etc.

Optical system

The LED luminaire is with double parabolic optical system designed especially for LEDs source of light. The optics is produced from highly efficient anodized aluminum in combination with a dedicated opal diffuser. For this optical system, ELUX has a registered EU design. The result is a LED luminaire with excellent comfort and efficiency.

Electrical connection

The luminaire is equipped with automatic connector. Options with connectors Wieland, Wago and

Ensto are also possible. The luminaire can be also supplied with cable for direct connection.

Technical Specification*

*All specifications are for Philips components.
