

## TTLED

### Linear trunking system

Innovative LED luminaire especially designed for large-scale supermarkets, sport halls, tennis courts and production facilities. With its nice aluminum finishing it can be not only an efficient and reliable source of illumination, but can also attribute to a modern internal design. The output of TTLED can be controlled at factory to cover the light output of a wide range of traditional T5 and T8 installations.

### Key advantages

- energy efficient luminaire with more than 133 lm/W
- long life-span of min 100,000 hours.
- completely maintenance free (no need for lamp replacement)
- easy mounting
- high-quality of the light emitted with CRI>80
- wide range of colour temperature – from 2700K to 6500 K

### Application

- Large supermarkets
- Sport halls
- Tennis courts
- Shops
- Showrooms
- Production facilities
- Warehouse

### Mounting

TTLED design enables easy mounting with no tools that lowers the expenses for setting up the system. The system can be installed as a continuous line but also as stand-alone luminaires. The connection is done through connectors from 3, 5 to 7 poles. Through special inox plates, TTLED luminaires can be installed as suspended or surface mounted (including on metal construction). With a specially designed protection fence, TTLED can be used in practically any sports facility including but not limited to tennis courts, basketball and volleyball halls, etc. With glare control of UGR<21 it is suitable for many of these activities.

### Material and finish

The housing of TTLED is made from extruded aluminum, powder painted white. Other colors are available on demand.

The luminaire is sealed by opal PMMA and its level of protection is IP44.

### Warranty

The operational life of the LED modules and drivers used is between 50,000 and 100,000h depending on the model used. The warranty of the luminaire is 5 years.

### Technical Specifications\*
